

PRESSURE MANAGEMENT SERVICES

Caltrol is recognized as a leading provider of Pressure and Safety Relief Valves, Tank Vents, and **VALVE TESTING & REPAIR SERVICES**. As an Emerson Impact Partner, we provide our customers with world-class technology, superior technical expertise, full lifecycle services, and local inventory to improve performance. We are ISO 9001 Certified and take pride in the quality of our employees, products, and services.

Valve and Actuator Repair Services

At your site or in our facility, we can evaluate and repair the following equipment regardless of manufacturer:

- Pressure relief valves and tank vent repair services
- Control valves, regulators and control instruments
- Isolation, gate, globe, ball, butterfly, plug and check valves
- Electric, pneumatic and hydraulic actuators

Pressure Relief Valve Services

We offer National Board-certified repair of safety and relief valves regardless of manufacturer, media or pressure class. Certified services are available on-site or at our local repair facility.

- National Board T/O & VR Certificates
- ASME V & UV Section I & Section VIII Certificates

Mobile Valve Shop Capabilities

Our mobile service trailers provide a portable maintenance facility at your site.

- NBIC VR Certified—Test and repair procedures are performed using calibrated instruments. Technicians can test, repair and re-certify as required.
- Intrinsically safe lift assist device for safety relief valve online testing without interrupting the process operation.
- Full field repair capabilities include: valve industry specialized testing and repair equipment, mobile machine shop with lathe, portable lapping equipment, calibration instruments and maintenance reliability software.
